1. Introduction

There are four types of Wi-Fi modules, the difference is shown on below chart:

Difference	Old Wi-Fi	Wi-Fi-E(1)	Wi-Fi-E(2)	Wi-Fi-S
SN Begin	AHXXXXXXXXX	4KXXXXXXXXX	IUBXXXXXXXXX	JPCXXXXXXXXX
Color	White	White	White	Black
LED	1LED	1LED	3LEDs(red,green,blue)	3LEDs(red,green,blue)
How to configure	Via built in webpage	Shinephone app	Shinephone app	Shinephone app/built in webpage
New and old time	Stop production at the end of 2015	Stop production in Sep.2017	Start in Sep.2017	Start in Q1, 2018
Latest firmware	4.0.0.0	1.1.2.3	1.1.1.9	1.7.6.4

2. Troubleshooting

2.1 Wifi device is not powering on

There is a blue LED Indicator near the KEY position, take out the black cover to check its status.

If it is off, it means it is not getting power.

Picture2.1.1 blue LED

Solution:Some models((MTL-S) have a DIP switch at the right side of the RS232 port. Please turn the pin1 to ON status, and keep pin 2 OFF. Please refer to the following picture:

Picture 2.1.2 Turn DIP switch 1 ON to power on Wifi device

If DIP switch 1 is set to ON, and even if change another Wifi module, the indicator is still off, probably it is COM board problem, please change a new COM board.

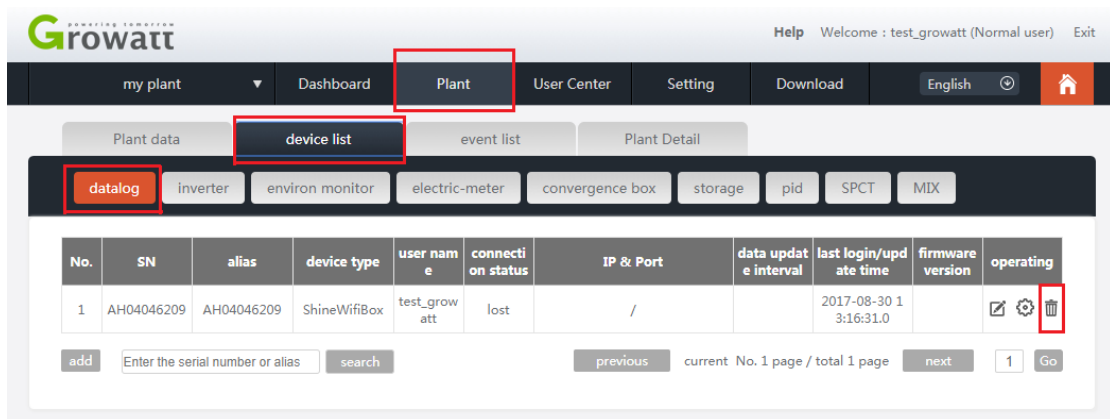

2.2 Datalogger already exist

When you are adding the data logger but it shows the message, it means the datalogger is already occupied by an account.

Solution: If you don't know which account is linked to this datalogger, please contact Growatt to find out. Another possibility is the data logger has two accounts, one of which was used to add the data logger, if you have the account, you can login to delete.

Steps:

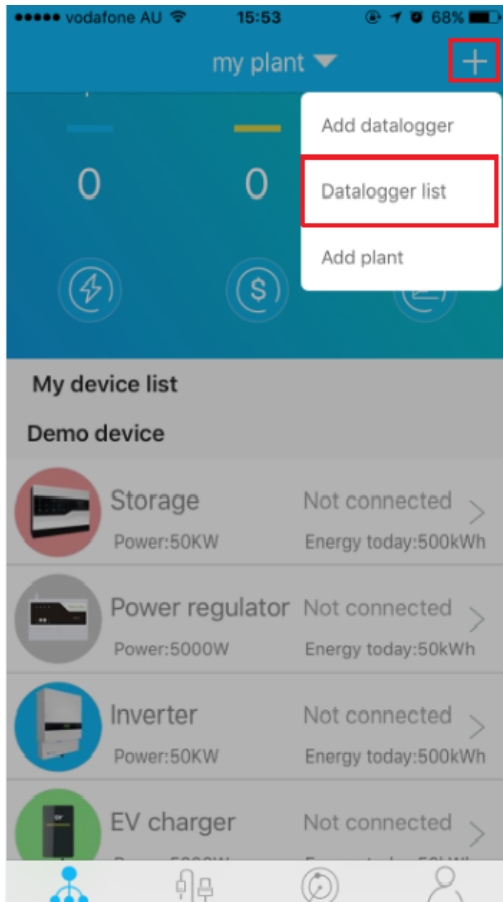

- 1) Visit server.growatt.com on your browser
- 2) Log in your account
- 3) Click Plant→ Device list→ Datalog→ Bin icon→ Yes, to delete the datalogger.

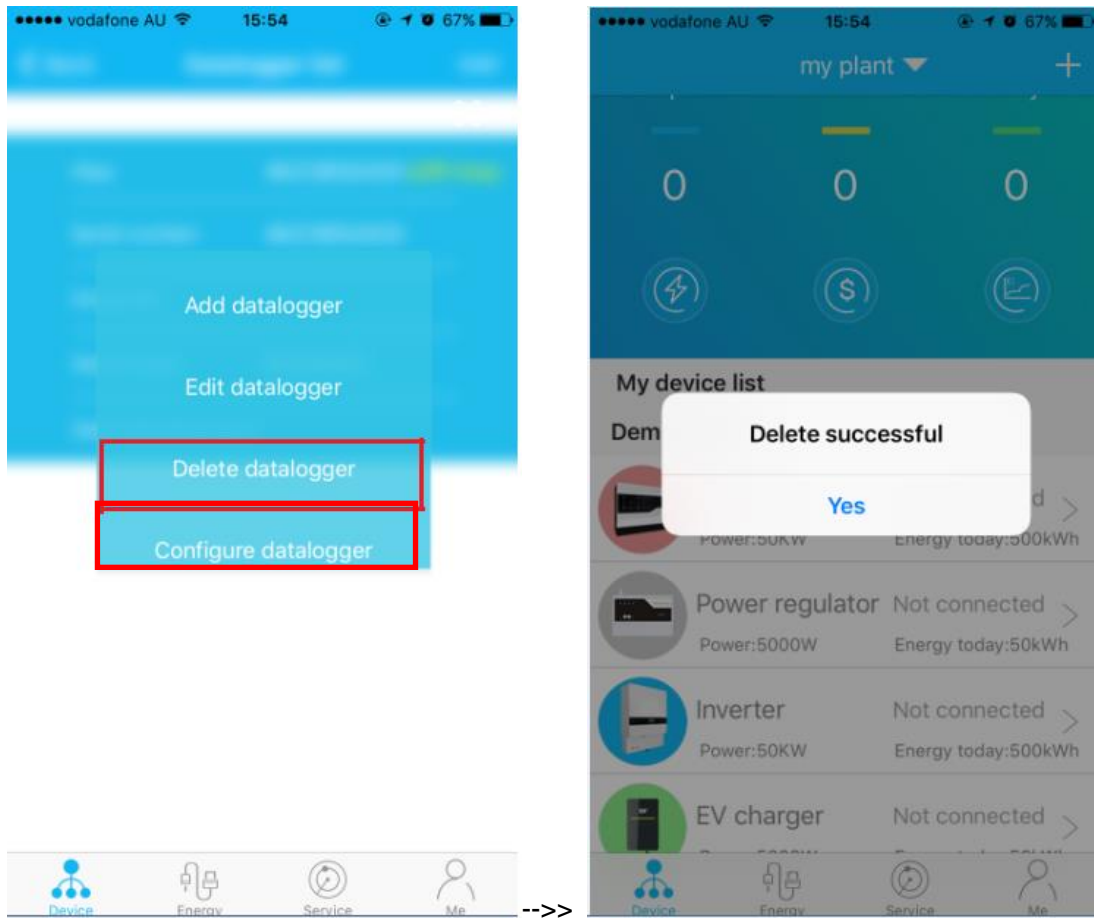

Or you can delete from Shinephone APP:

- 1) Open Shine Phone and log in your account

- 2) Go to the main menu
- 3) Click plus '+' at the top right → Datalogger list
- 4) Press-hold the interface and a new window will pop up → Click Delete datalogger or configure datalogger.

2.3 Connected successfully, but no device found

This problem will happen when you have a empty plant in your account.

Solution:Please delete the empty plant that has no device.

+ Add plant

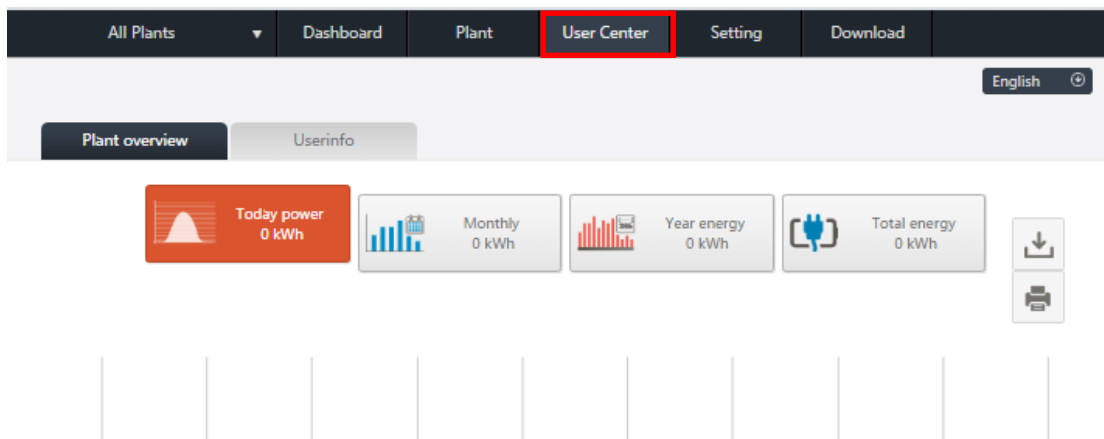

No.	Plant name	Country	City	Total energy (kWh)	operating
28629	Buikema	Netherlands		3495.8	  
80570	my Plant	Netherlands		0.0	  

previous current No. 1 page / total 1 page next 1 Go

2.4 Time on the platform is wrong

2.4.1 Check and change it on ShineServer web page

1) Please click on the user centre,

2) You will see the plant details on the bottom of this page. Click edit icon

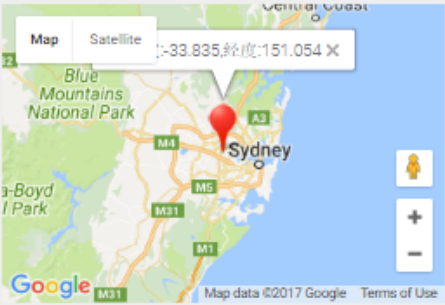

+ Add plant

No.	Plant name	Country	City	Total energy (kWh)	operating
49110	my plant	Australia		0.0	 

3) Please change the time zone of the local area.

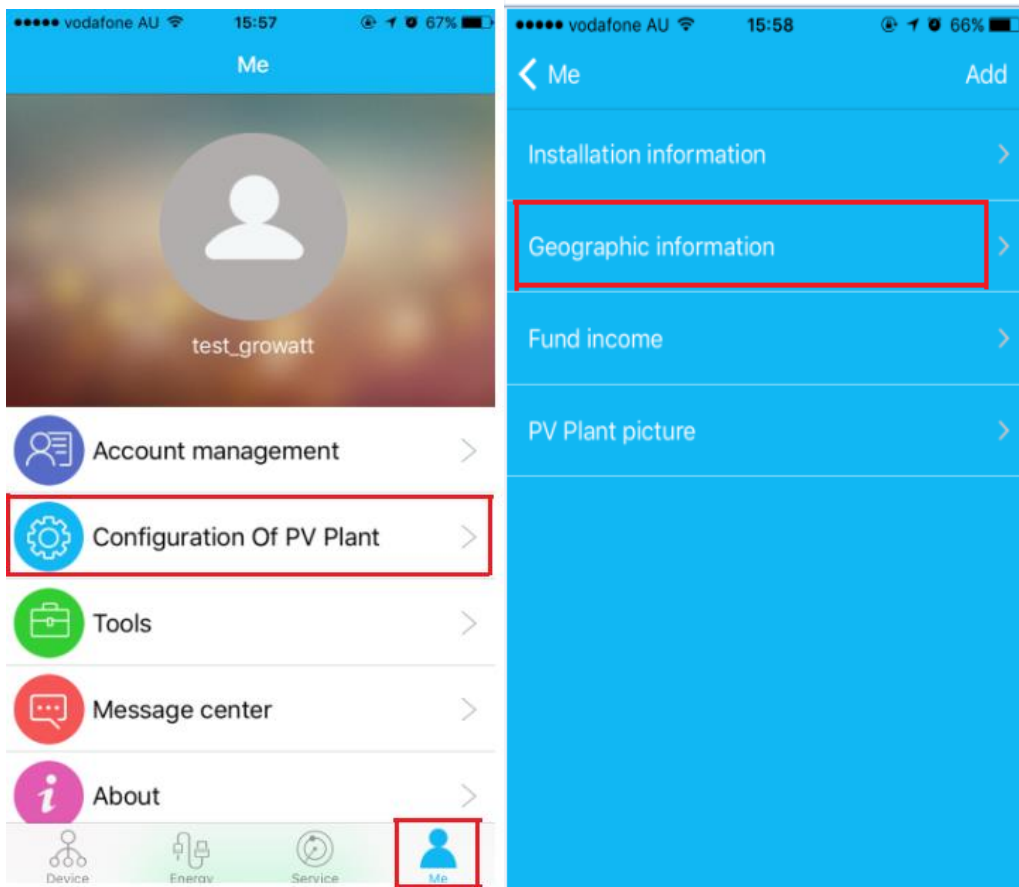

you can also edit the feed-in tariff rate in the “capital income”box, and change the location of your system.

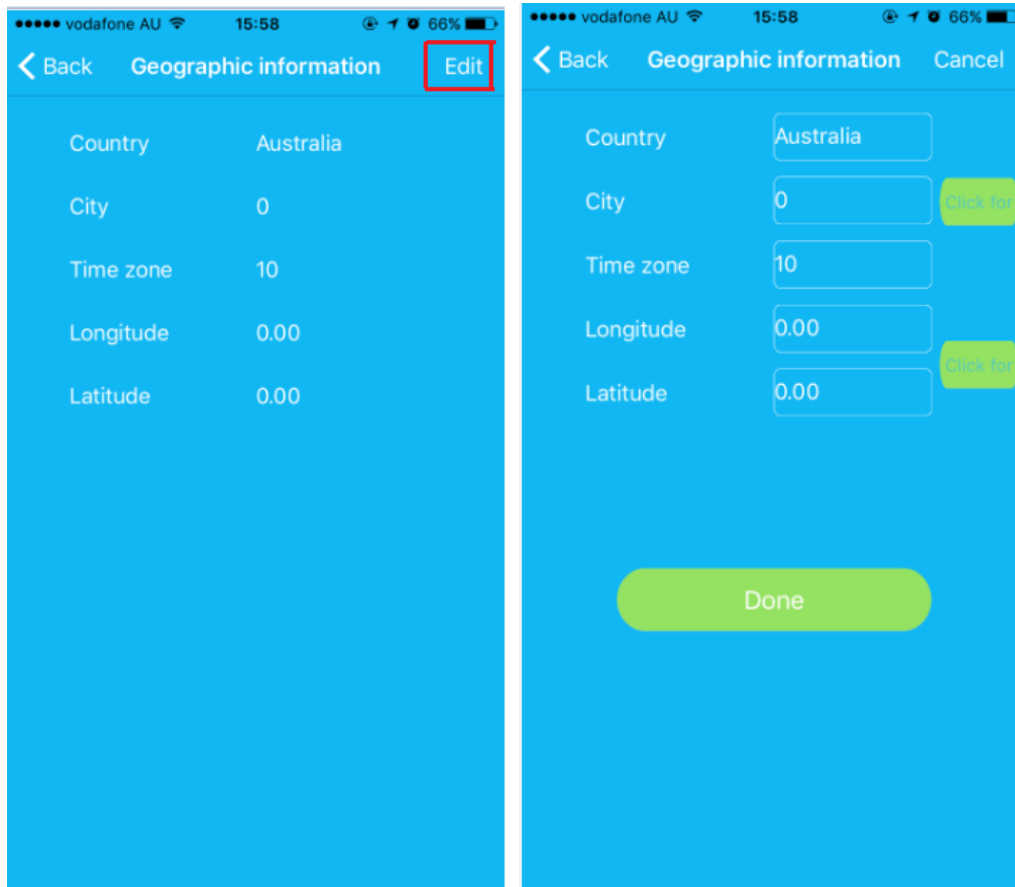

Edit plant

<div style="background-color: #333; color: white; padding: 2px; font-weight: bold; margin-bottom: 5px;">Installation information</div> <p>Plant name <input style="border: 1px solid #ccc;" type="text" value="my plant"/> *</p> <p>Instal date <input style="border: 1px solid #ccc;" type="text" value="2017-08-14"/> *</p> <p>Power(W) <input style="border: 1px solid #ccc;" type="text" value="0"/></p> <p>Company <input style="border: 1px solid #ccc;" type="text"/></p>	<div style="background-color: #333; color: white; padding: 2px; font-weight: bold; margin-bottom: 5px;">Set income formula(Set 1kwh as the conversion standard)</div> <p>Capital income <input style="border: 1px solid #ccc;" type="text" value="0.07"/> <input style="border: none;" type="text" value="RMB(¥)"/></p> <p>Coal saved(Kg) <input style="border: 1px solid #ccc;" type="text" value="0.4"/></p> <p>CO₂ reduced <input style="border: 1px solid #ccc;" type="text" value="1.0"/></p> <p>SO₂ reduced <input style="border: 1px solid #ccc;" type="text" value="0.03"/></p>
<div style="background-color: #333; color: white; padding: 2px; font-weight: bold; margin-bottom: 5px;">Location information</div> <p>Country <input style="border: 1px solid #ccc;" type="text" value="Australia"/> *</p> <p>City <input style="border: 1px solid #ccc;" type="text"/></p> <p style="border: 2px solid red; padding: 2px;">Time zone <input style="border: 1px solid #ccc;" type="text" value="GMT +10"/> *</p> <p>Latitude <input style="border: 1px solid #ccc;" type="text" value="-33.83585027666353"/></p> <p>Longitude <input style="border: 1px solid #ccc;" type="text" value="151.05466201305387"/></p> <p>Plant Image <input style="border: none;" type="button" value="Choose file"/> No file chosen</p> <p>Location Image <input style="border: none;" type="button" value="Choose file"/> No file chosen</p>	<div style="background-color: #333; color: white; padding: 2px; font-weight: bold; margin-bottom: 5px;">Map(drag red marker to select location) <input style="border: none;" type="text" value="google.com"/></div> <div style="border: 1px solid #ccc; padding: 5px;">  </div> <div style="text-align: right; margin-top: 5px;"> <input style="border: none;" type="button" value="save"/> <input style="border: none;" type="button" value="cancel"/> </div>

2.4.2 Check and change it on mobile ShinePhone APP

- 1) Please find and click 'Me' at the bottom right→Configuration of PV Plant→Geographic information
- 2) Please find and click 'Edit' at top right
- 3) Now you are allowed to enter your location information

Note: WiFi-E has time synchronous function, everytime datalogger connects to network, will synchronize invert time automatically according to its time zone.

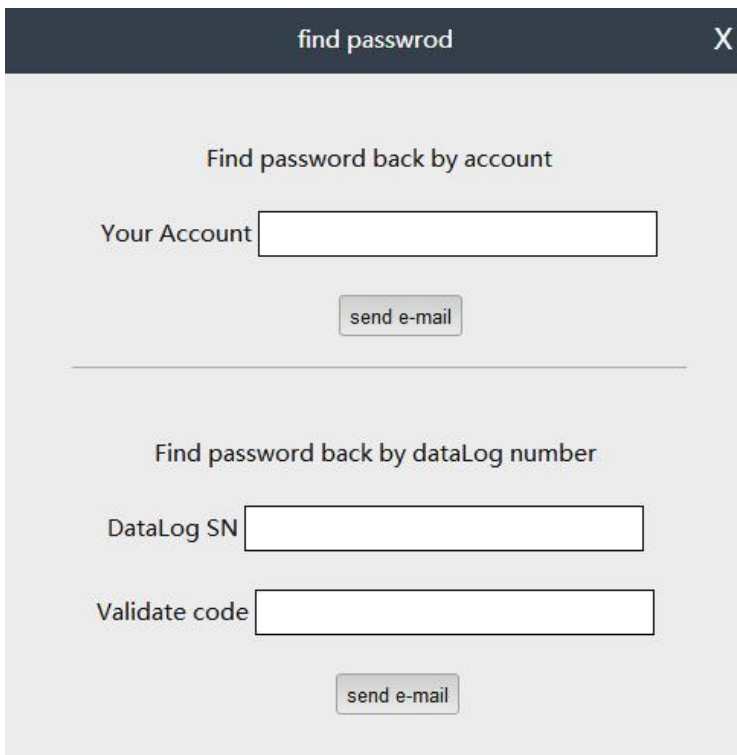

2.5 After resetting the password or replacing the router, the connection lost

The shinewifi or Wifi-E device will lose connection with the router, when the router is reset or the password is changed.

Solution: Reset wifi-E through hold the “Key” button for 3 seconds until the LED light is steady. Then configure as the user manual.

2.6 Forget server password

2.6.1 Solution: go to <http://server.growatt.com/>, click forget password, input your email or datalogger SN and check code to get the reset email.

2.6.2 E-mail password forget too,can't receive reset email.

Solution: Please contact your local seller or Growatt to reset it for you. After you got the new password,please go to user center to change your email.

add Enter the serial number or alias search previous current No. 1 page / total 1 page next 1 Go

Solution: The datalogger is broken, contact your local seller for a new one.

2.8 Data logger connects to router, but not connect to server

Solution: Disable router firewall or turn firewall protection level at Low

2.9 Data logger shows lost when connect to router, but shows connection with mobile hot spot

Description: shows lost when connected to router, but works well with mobile hot spot.

server.growatt.com/plant.do

No.	SN	alias	device type	user name	connection status	IP & Port	data update interval	last login/update time	firmware version	operating
1	4KZ3650264	4KZ3650264	ShineWIFI	sumanju	lost	/157.49.6.213:1028/	5	2017-11-25 08:52:50	1.1.0.5	

Solution:

- 1) Use mobile as hotspot to connect datalogger to make sure it is in connection status on the server.
- 2) open <http://server.growatt.com/> and login
- 3) Click Edit data logger, set ip: 47.91.67.66, key is datalog+date, click save.
- 4) Recofigure datalogger on shinephone app with router

3.0 How to change my username.

You can create an username, then login the old username, go to user center-plant overview, click edit button, and input your new username to transfer your inverter under your new username.

The screenshot shows a 'Set up Plant' dialog box with two main sections: 'Transfer Plant' and 'Share Plant'. In the 'Transfer Plant' section, there is a 'Target User:' label followed by an empty text input field with a red border, and a 'yes' button. Below this is a warning message: '⚠ WARNING: Transfer the past, can not be revoked'. The 'Share Plant' section has a 'Whether to share:' label with radio buttons for 'Yes' and 'No' (selected), and a 'yes' button. At the bottom of the dialog is a 'cancel' button. A tip message is also present: '💡 Tip: Share will be displayed in the list of visitors stations'.
